

8IP AUSTRALIAN SMALL COMPANIES MODEL PORTFOLIO

QUARTERLY REPORT

31 DECEMBER 2018

The 8IP Australian Small Companies Model Portfolio is offered via a Managed Discretionary Account.

MARKET AND PORTFOLIO REVIEW

The Model Portfolio returned -13.41% for the December quarter, resulting in a full year decline of -14.02%. This represents the first down year for the Portfolio and reflects the difficult market environment for small and emerging companies. While the S&P/ASX Small Ordinaries Index fell -8.66% for the year, the S&P/ASX Emerging Companies Index was down -19.94%.

The best performing stocks for the quarter were Antipa Minerals, Elixinol Global, and Doray Minerals while the key detractors were Gazal Corp, Galena Mining, and Mod Resources. We have reduced the number of stocks held and increased cash to reflect our near term caution on markets in light of the ongoing tightening of monetary policy and the risk of slower economic growth, both domestically and internationally.

PERFORMANCE SUMMARY¹

Period	Model Portfolio	Benchmark	+/- Return
1 month	-4.52%	0.30%	-4.82%
3 months	-13.41%	0.89%	-14.30%

¹ The Portfolio's benchmark is the RBA Cash Rate + 2% per annum. Past performance is not a reliable indicator of future performance and may not be achieved in the future. All information provided in this Report is correct at the date of this report. Returns are calculated net of management, administration, custody and transaction fees, and assume the reinvestment of all income (but not franking credits). Inception date of the Portfolio is 25 June 2014. Actual individual returns of each client's portfolio will differ depending on factors such as date of initial investment, timing of transactions, inflows and outflows, other fees and any customisations. Please refer to the relevant Investment Mandate for full information on product specifics, including all fees and costs.

INVESTMENT OBJECTIVE & STRATEGY

The 8IP Australian Small Companies Model Portfolio (Model Portfolio) aims to deliver a high absolute return over rolling three to five years by investing in Australian small companies, while at the same time attempting to minimise the risk of permanent loss of capital by having the ability to hold up to 50% in cash.

The Model Portfolio offers the opportunity to invest in a selection of Australian Securities Exchange listed companies that have been identified by the investment team as having under-recognised growth potential.

The Model Portfolio follows a concentrated, long-only strategy that results in typically 10 - 30 investments. Eight Investment Partners is a bottom-up stock investor that seeks to deliver absolute returns over the medium to long term (3 to 5 years).
